

Sick of managing expedites? Need to reduce transportation cost? Challenged with a lack of visibility yet can't afford a TMS or headcount? Then it's time to **Lean On Us!** With only a few data inputs and a day of your time, our **Lean Transportation Diagnosis** (a LeanCor Quick Win Service) will open the door to cost reduction and process improvements for you.

This Diagnosis will examine: To find opportunities for:

- Carrier Management,
- Rate Competitiveness,
- Route Engineering, and
- Load Tendering Process.
- Dynamic Route Design
- Leveled Flow of Materials/ Finished Goods
- Increased Delivery Frequency
- Reduced Lot Size

## DELIVERABLES:

1. Logistics Network - Current State Mapping
2. Supplier/ Customer Base Mapping
3. Volume, Frequency, and Variation Analyses
4. Carrier Rationalization
5. Transportation Rate Audit
6. Route Design Opportunities - Identification and Prioritization
  - Master Bill of Lading
  - Mode Optimization
  - LTL/Line Haul Consolidation
  - Milk Run (Multi Stop) Lanes
7. Total Logistic Cost Modeling
8. A Roadmap for Cost Reduction
  - Transportation Cost
  - Inventory Carrying Cost
  - Material Handling Cost
  - Resource Utilization

## LEAN SUPPLY CHAIN RESULTS:

- Transportation Cost Reduction: up to 15%
- Cost of Poor Quality Reduction: up to 95%
- Gross Profit Improvement: up to 15%
- Free Cash Flow Improvement: up to 30%
- Productivity Improvement: up to 300%
- Lead Time Reduction: up to 80%
- Facility Space Reduction: up to 35%
- Materials Cost Reduction: up to 15%

*Results given are based on real world case studies.*

LeanCor is the only 3PL dedicated to the application of Lean principles throughout the supply chain. Building on 15+ years of experience, President and Founder Robert Martichenko created LeanCor to drive the next step in the evolution of Lean. Through its partnerships with established, forward thinking entities and 3 categories of service (training and education, consulting, and operations), LeanCor is designed to support companies in their efforts to eliminate organizational waste, drive down cost, and increase competitive advantage.
